

**Workshop « Disordered quantum systems »
April 23th – July 20th, 2012**

All the events of the workshops will take place at IHP, 11 rue Pierre et Marie Curie, Paris 5^{ème}.

Program from April 30th to May 4th, 2012

**MONDAY MAY 30th and TUESDAY MAY 1st, 2012 – BANK HOLIDAY – IHP
CLOSED HIS DOORS**

WEDNESDAY MAY 2nd, 2012

11 am – 12.30 pm Seminar (Amphithâtre Hermite)

Joe IMRY : Thermoelectric transport near the Anderson transition, in three-terminal nanosystems and in hopping chains.

2.30 pm – 3.30 pm Seminar (Amphithéâtre Hermite)

Laura FOINI : Out-of-equilibrium dynamics and effective temperatures after a quantum quench in the transverse field Ising chain.

THURSDAY MAY 3rd, 2012

11 am – 12.30 pm Lecture (Amphithéâtre Hermite)

Konstantin EFETOV : Supersymmetry in disordered systems (I).

2.30 pm – 4 pm Lecture (Amphithéâtre Hermite)

Konstantin EFETOV : Supersymmetry in disordered systems (II).

FRIDAY MAY 4th, 2012

11 am – 12.30 pm Lecture (Amphithéâtre Hermite)

Konstantin EFETOV : Supersymmetry in disordered systems (III).

2.30 pm – 4 pm Lecture (Amphithéâtre Hermite)

Giorgio PARISI : Glassy states of matter (I).

4 pm – 4.30 pm – Tea break on the second floor
