

# **Driving Forces in Physical, Biological and Socio-Economic Phenomena**

## **A Network Science Investigation of Social Bonds and Interactions**

## **Contents**

**Preface**

**Contents**

### **PART I BRIDGING THE GAP BETWEEN PHYSICS AND THE SOCIAL SCIENCES**

---

#### **Chapter 1 Probing bonds**

- 1 The Rutherford experiment
- 2 Boiling points as test-probes
- 3 Basic principles of the physics of mixing
- 4 Immiscible liquids
- 5 Physical properties of a mixture as a tool for exploring bonds
- 6 Estimating the correlation length in social phenomena
- 7 Outline of the book
- A Appendix A: Gauging the links between two twinned communities

#### **Chapter 2 The battle against noise in physics**

- 1 Improving the signal to noise ratio in the pendulum experiment
- 2 Noise reduction in the detection of gravitational waves
- 3 Pattern matching: a simulation

#### **Chapter 3 The battle against noise in the social sciences**

- 1 The extreme value technique
- 2 Pattern matching: knowing when and what to observe
- 3 Reducing noise by adding up several realizations
- 4 Confidence intervals and statistical significance
- 5 Upgrading statistical tests

## 6 Conclusion

### **Chapter 4 Equilibrium and metastable states**

- 1 Equilibrium restoring forces
- 2 Probing the strength of equilibrium restoring forces
- 3 Metastable states in physics and chemistry
- 4 Metastability, seeds and forms of post-revolution societies

### **Chapter 5 Are the data reliable?**

- 1 The replication process for the Foucault pendulum experiment
- 2 The replication process for cold nuclear fusion
- 3 Biased suicide statistics
- 4 Interactions between Japanese population and occupation forces
- 5 Conclusions and perspectives

## **PART II MACRO INTERACTIONS**

---

### **Chapter 6 Shaping the *Zeitgeist***

- 1 Marketing campaigns: shaping the response of consumers
  - 2 Public relations campaigns: example of cell phones in cars
  - 3 Shaping the *Zeitgeist*: the promotion of neoliberalism
  - 4 Tangible effects of neoliberal policies
  - 5 A network perspective
- A Appendix A: From Edward Bernays to Isaac Asimov

### **Chapter 7 Bonds of vassalage**

- 1 Role of the United States in the First Vietnam War
- 2 Ways and means
- 3 Identification of interference through the coincidence method

### **Chapter 8 The absentee ownership syndrome**

- 1 Land reform in Japan under General MacArthur
- 2 How the strength of interpersonal interactions conditions human behavior
- 3 Effects of absentee ownership in Ireland
- 4 Effect of segmentation on the effectiveness of a social system
- 5 Hardship as a side effect of absentee landlordism
- 6 The absentee landlord paradigm in history
- 7 Assessing interaction in settler colonies
- 8 Revolutions seen as a way to end absentee landlordism
- 9 Present-day manifestations of the absentee landlord syndrome

## **PART III MICRO INTERACTIONS: A NETWORK VIEW OF SUICIDE**

---

### **Chapter 9 Effects of a male-female imbalance**

- 1 Suicide rates of unmarried versus married people
- 2 Suicide rate in a population with a gender imbalance
- 3 Designing the experiment
- 4 Suicide rates as a function of sex ratio in groups of immigrants
- 5 Cross-sectional analysis
- 6 Male - female imbalance induced by war
- A Appendix A: Suicide rate in a population with a sex ratio  $r \neq 1$

### **Chapter 10 Effect of weakened marital bonds on suicide**

- 1 Suicide rate of young widowers
- 2 Effect of falling marriage rates
- 3 Effect of a sudden upsurge in marriages
- 4 Connection between mean age of marriage and suicide rate
- 5 Longitudinal test
- 6 Cross-sectional analysis

### **Chapter 11 Effect of social isolation on suicide**

- 1 Effect of major historical events on suicide
- 2 Effect of social isolation on suicide
- 3 Effect of a rearrangement of social ties
- 4 Effect on suicide of the social disruption experienced by immigrants
- 5 Effect of immigration on suicide rates in the country of destination
- 6 Non linear mixing relationships

### **Chapter 12 Apoptosis**

- 1 Apoptosis versus necrosis
- 2 Role of apoptosis in the development of multicellular organisms
- 3 Apoptosis in plants
- 4 Apoptosis in populations
- 5 Apoptosis in groups of mammals
- 6 Apoptosis in human societies

### **Chapter 13 Perspectives**

### **References**

### **Index**
